Re: Letter of Recommendation

To whom it may concern:

It is our pleasure to recommend Bilbao Renovations. We are a food research company that has used their services for our upgrades and renovations at our office and laboratories over the last year.

Juan Pedro Bilbao is the owner and project manager of Bilbao Renovations. He is professional and demonstrates his skills and provides many helpful suggestions during the project timeframe. He and his team work efficiently and in an organized manner.

We are very pleased with the services they have provided us so far, and will not hesitate if a future renovation project will arise at our company.

Thank you,

Jeannine Cerro,
Vice-President
